Cecilia Prescott
Business Insurance Agent

The single best thing about Cecilia is how **thorough** she is.

As a business owner trying to secure insurance for my agency, I've spoken to several insurance agents, and most of those conversations felt pretty transactional. A few surface-level questions, they plug it into a system, and then a quote shows up in my inbox.

But when I spoke with Cecilia, she spent almost 30 minutes asking detailed questions about how my agency operates, how my contractors are structured, and where I might have exposure. She asked questions no one else had asked me, which immediately told me she was different.

Then she did something **ELSE** that set her apart even more.

I shared a quote I had received from another carrier, and she had a hunch that the policy classification might not actually cover my type of business. Instead of just giving her opinion, she went directly to that carrier to verify it and sent me screenshots confirming that the policy likely would not have covered me the way I thought it would.

That level of diligence is **NEXT LEVEL**. Cecilia doesn't just sell policies. She educates you, asks the hard questions, and makes sure your business is truly protected. I would confidently recommend her to any business owner looking for an agent.

Sincerely,
