

I am writing to share my experience with Jeremy Hardin and his business Blue Mountain Exteriors. We had lived at our house for two years when we realized that the white stucco had dirtied and faded to a pale yellow. We did not want to spend the 10 thousand dollars to paint the exterior.

I reached out to Jeremy and he came to our house very quickly. The quote he provided arrived swiftly and was very reasonably priced. When they came to softwash our house, they arrived on time and were respectful of our property. The next day, the difference in color was plain to see.

I can say with certainty that Jeremy Hardin is an absolute professional in the house cleaning space. We could not be more pleased with the service that Jeremy provided us. I would recommend his company without hesitation to anyone in need of an exterior home refreshing.

Thank you Jeremy and I look forward to utilizing your services in the future.
