

To Whom It May Concern,

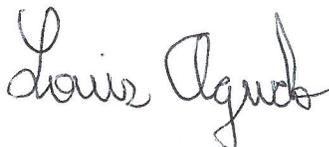

3/19/2026

It is my pleasure to provide this recommendation for **Christopher Lyboldt** of **Senior Care Authority**. When a loved one needs advanced care, the process is often overwhelming and emotional. As a Medicare specialist, I've seen families struggle with guilt and confusion. They ask me for guidance, not knowing where to turn. This is where I bring Christopher into the process. Christopher isn't just an advisor; he is a dedicated advocate for the family.

He takes the guesswork out of the search. Christopher knows exactly which facilities to tour and which ones to avoid based on the specific needs of the individual. He walks and tours the facilities *with* you, offering a calm, rational perspective when things feel stressful during this emotionally difficult time. He treats every senior with the dignity, respect, and kindness they deserve.

If you're navigating cognitive impairment or complex health issues for a loved one, don't wait until it's a crisis. Christopher will be there for you every step of the way. Call **Christopher Lyboldt of Senior Care Authority 770-631-5923**. It is never too early to plan for peace of mind."
