

Byron Hooper  
Black Maple Insurance

**Good morning,**

As a State Farm agent, I work with clients every day who need insurance solutions across many areas of life, but State Farm has a limited appetite when it comes to commercial coverage. There are many business types we simply cannot write, and before I connected with Byron, I often found myself without a trusted resource to confidently point those clients toward.

He has been the solution I did not know I needed. Whether the client is a trucking company owner, a private tutor, or a brand-new business owner just getting started, he handles each one with expertise and professionalism. He takes the time to assess their needs, finds coverage that fits, and gets it done every single time. Not once has he let a referral fall through the cracks.

Because of him, my clients are covered and protected, and I have complete peace of mind every time I send someone his way. I no longer worry about leaving people without options. If you are looking for someone who will show up, follow through, and truly take care of your business insurance needs, he is your person.

Sincerely,

**Muizz Olajide**
