Dear Mark,

I wanted to thank you for helping my company over the past five years. While many people think of accountants only in terms of tax preparation, but through our conversations, I have come to appreciate that you have a great deal more to offer your clients.

Over the years I have had questions ranging from how to account for labor costs to asset depreciation. I was always able to understand your answers and turn them into actions. You helped me to focus on the important aspects for running my business and measuring success.

With your help, my business has been able to weather the rough times and is ready to grow. I appreciate it greatly and look forward to our continued relationship in the years to come.

Best regards,

Mike Smith
