Endorsement Letter for Luddy Liggon with Skyline Consulting Partners

Luddy Liggon with Skyline Consulting Partners has been an absolute pleasure to work with. From the very beginning, she was incredibly generous with her time, never making us feel rushed and always willing to slow down and walk through the details. We gave Luddy a very short time-line to work with (my bad – sorry!), which she sensed right away and got right to work with an urgency that really impressed my partner and me. In a space like health insurance, where things can get complicated in a hurry, that kind of patience and care makes all the difference. She has a real gift for meeting people where they are and helping them feel informed instead of overwhelmed.

What really sets Luddy apart is her consultative, educational approach. She does not just hand over options and expect you to sort it out on your own — she takes the time to explain the why behind the recommendations, answer questions thoughtfully, and make sure you understand what you are choosing and how it fits your needs. She brings both professionalism and a personal touch to the process, which is not something you find every day. I would gladly recommend Luddy to anyone looking for a health insurance broker who is knowledgeable, trustworthy, and truly invested in helping people make sound decisions.

My sincere thanks,

Ryan Tingle; VP at the Tabb Insurance Agency
