ENDORSEMENT LETTER

I am pleased to provide this endorsement for **Lisa Laday, CPA**, based on the outstanding experience she delivered for me.

I came to Lisa in a time sensitive situation, needing my taxes filed at the last minute. What could have been a stressful and uncertain process was handled with efficiency and precision. She stepped in immediately, took control of the situation, and ensured everything was completed accurately and on time.

What stood out most was her ability to quickly understand and navigate my complex entity structure. She asked the right questions early, pinpointed the critical factors without delay, which brought clarity early and kept everything moving in the right direction.

Beyond execution, the value she provided was exceptional. Her fee was roughly half of what I have paid in the past, yet the level of service and expertise exceeded my expectations. More importantly, she took the time to educate me on how fiscal year elections work within an S corporation structure, which gave me a better understanding of how to plan moving forward.

The result was not just a completed tax filing, but a smoother, more informed financial position overall. Her ability to combine technical expertise, efficiency, and clear communication is exactly what business owners need in a CPA.

I highly recommend **Lisa Laday** to anyone looking for a knowledgeable, responsive, and cost effective CPA who delivers real results.
