

For Dr. Jason Regis:

As a native of Atlanta, I frequently receive requests from friends and clients seeking referrals for various services. In 2019, I joined PowerCore to enhance my ability to both GIVE and GET referrals. It was during this time that I had the privilege of meeting Dr. Jason Regis, a remarkable chiropractor.

In February 2025, I experienced a serious car accident where I was struck from behind. I sought immediate attention at the emergency room due to significant pain; fortunately, I was not required to stay in the hospital. Recognizing the need for specialized care, I reached out to Dr. Jason Regis. He promptly scheduled an evaluation, and I was truly impressed by his thorough approach. What stood out to me was the transition I experienced from being a mere patient to becoming a dedicated Team Member.

I quickly learned that my road to recovery hinged not only on Dr. Jason's expertise but also on the effort I was willing to put in at home. My recovery journey was not swift, but it was **transformative**. Dr. Jason's office provided a well-rounded regime, encompassing various exercise stations, massages, and the most effective adjustments I have ever received.

Dr. Jason greatly exceeded my expectations, and I am now feeling significantly better, capable of resuming my pre-accident activities and perhaps a bit more. His commitment, along with the support from his staff, has been instrumental in my recovery, and I am profoundly grateful for their assistance.

Recently, I responded to a query in a private Facebook group looking for a chiropractor and promptly recommended Dr. Jason. Just a week later, while having lunch with a client, a friend approached me to say hello. During our conversation, he said he saw my Facebook post and inquired about my connection to Dr. Jason. I shared that we are part of the same networking group, and I also became a Team Member following my car accident. To my delight, my friend remarked, "You know we moved to town, but Dr. Jason is the best chiropractor my wife and I have ever been to."

I feel fortunate to know Dr. Jason and wholeheartedly recommend him to anyone in need of chiropractic care and pain relief.

Best wishes,

Sheldon Berch
