Lisa-

I was looking for a special day – such as your PowerCore anniversary to write this letter, but as the old saying goes, “There’s no time like the present.”

You are the OG of the PowerCore Walk and Talk and have been a consistent, enthusiastic and thoughtful member of our team since November 2, 2018, which brings to mind another old saying, “Time flies when you’re having fun!”

During this time, you have grown as a team member, trusted insurance advisor and my friend. Not only did you patiently give me numerous quotes-waiting for it to make sense to me and for our family, but you have served so many of the team, as well as my clients and friends with your experience and depth of knowledge about the daunting realm of health insurance – sometimes even helping them come to the conclusion that your products may not be the best choice for them. This makes you even more refer-able because it proves that your heart is in the right place!

So, no big AHA moment initiated this, but that’s apropos for you -- it is your integrity and diligent work ethic that have brought you steady growth and prove you’re no “flash in the pan” or “fly by night” businesswoman.

Please know that I have “got your back” and I pray that “what goes around (continues) to come around” for you in good measure!

Gratefully,

A handwritten signature in red ink that reads 'Annie'.
