To Whom It May Concern,

I am writing this to share what an amazing experience my wife and I had working with Patty Williamson at Silverton Mortgage.

We recently bought an out-of-state condo for our daughter, which could have easily been a stressful logistical headache. Instead, Patty made the entire process incredibly smooth and straightforward from start to finish.

From day one, Patty was completely on top of everything. Buying a property from a distance means dealing with extra moving parts, but she kept us updated constantly, answered all our questions right away, and made sure there were absolutely no surprises at closing.

What we appreciated most was how much she truly cared about helping our family. She didn't just treat us like another file on her desk; she gave us honest guidance, total peace of mind, and top-notch service every step of the way.

Thanks to Patty's hard work, our daughter is now happily settled into her new place. If you are looking for a mortgage lender who is brilliant at what she does, deeply organized, and just a pleasure to work with, we cannot recommend Patty and Silverton Mortgage enough.

Best regards,

Jay Hassell
