

I'm not sure if I'm alone in feeling that pit of dread in my stomach when tax season rolls around. For a long time, taxes were a major source of anxiety for me. Our previous tax preparer was distant, barely communicated, and left us feeling completely in the dark about our own finances.

Then I met Lisa Laday with SMB Accounting.

What first impressed me about Lisa was her ability to speak with confidence and the knowledge that she really understands her field. From our very first conversation, Lisa completely transformed the entire "scary taxes" experience. She didn't just crunch numbers—she educated us, listened patiently, and guided us through the entire process with total transparency. Where our old preparer missed things, Lisa brought deep expertise to the table, helping us uncover legitimate tax deductions and strategic savings we didn't even know we were eligible for.

More than anything, Lisa gave us confidence. She turned a process I used to be terrified of into a seamless, empowering experience.

If you, your business, or your clients are looking for a CPA who is not only a brilliant master of tax strategy, but also a caring, proactive partner who puts your mind at ease, you need Lisa Laday in your corner.

Thank you, Lisa, for taking care of my business like it's your own!

Warmly,

Lily Chastain
