Dear Zakeya;

I wanted to give a big 'Thank You' for taking care of the Business Head Shots and Group Pictures for my team. As we discussed, most of my group do not like to get their pictures taken and it has been stressful to get these done in the past.

You came into the office, instantly started setting up your equipment based on the lighting conditions you found. You set everyone at ease with your calm personality and obvious competence along with the way you said 'boop' every time you took our pictures. What works for kids clearly works for financial professionals!

As you recall I was trying to get the office ready for a client meeting and I was very worried we would run over schedule with the pictures, but you were able to keep everyone on track, and we never ran into timing trouble.

Truly a great experience all the way around!

Sincerely,

Erik Thompson, CFP®, MBA
