...repurpose, renew, reuse!

August 26, 2015

Dale,

Just wanted to give a little "shout-out" to you and your staff at the Civilized Plumber...

I was in desperate need of a plumber a couple weeks ago. You returned my phone call on a Saturday even though you were out of town. You then had one of your staff call me and come by the same day. Carlton was great about updating me on his arrival time. He was able to temporarily solve our leak and get our hot water back on which was a huge relief. Plus, he assisted me in ordering the proper valves that are no longer carried in a store because our house is so old. Once the valves arrived, I made an appointment with Michelle, who was very friendly and helpful. Today, Doug quickly installed the new shower valves and everything is working great. The Civilized Plumber made our shower leaking ordeal go away and at a very reasonable cost.

I will defiantly add you to my Interiors Resource List for my own clients marked with a high recommendation.

Thanks again!

Paige Hudgins
