

To whom it may concern,

I would like to take this opportunity to say thank you to Dale Johnson for a job well done. After having battled several plumbing problems for some time and having paid a couple of other companies to resolve them, Dale's Customs did an outstanding job and did exactly what they promised – fixed the leaks and replaced the appropriate hardware quickly and professionally.

Their rates are very fair and the quality of the work is a great value. I wholeheartedly recommend Dale for anyone with plumbing needs.

Best regards,

Joe Huebner
