The Civilized Plumber
Dale Johnson

To those who are looking for a plumber who is reliable, courteous, knowledgeable and charges a more than fair price...look no further, Dale is your man! Dales has been to our house several times to put in a hot water recirculator, fix a leaky tub, and a clogged shower (man is he dedicated!) I have never met a Plumber I trusted so much!

Thank you Dale for always coming to our rescue! You have my full endorsement! Please use me as a reference any time you like. I would be honored to share how outstanding your service has been.

Sincerely,

Terisha Tatter
