RE: Representation of my daughter

Dear Dan,

I am writing to thank you for your help in achieving a dismissal in my daughter's auto accident case! As the parent of two teen drivers, one of my biggest fears is getting that call regarding my daughter being involved in a car accident. After the recent accident (thankfully she was not injured) and being charged with following too closely, I didn't hesitate in engaging your service. I felt the best outcome would involve her taking a drivers education course and paying a fine. I didn't feel a dismissal was a possibility.

Your ability to obtain a dismissal due to your working relationship with the solicitor was truly a pleasant surprise! I won't hesitate in recommending you to people who have been charged in an accident. I truly appreciate you being on our side and coming to court on a holiday. I am confident that being unrepresented in this matter would have resulted in paying more in the next year alone (in higher insurance premiums and drivers ed courses) than we paid you for your representation. Thank you very much for your help.

Jason Conn
