Endorsement Letter for Duncan Cottrell, The Entry Enforcer

I called Duncan at 7am on a Monday morning and sure enough he answered his phone. I called him at this hour because a great friend of mine's home had been broken into and they were over 500 miles away. They were completely helpless and distraught. They called me since I handle their home insurance and asked what I could do to help secure the back door so no other intruders came in the home. After Duncan and I discussed the situation he put them at the top of his priority list. He did all this while preparing to have an eye procedure. This was truly unbelievable dedication and service. I could not define "above and beyond" any better than Duncan.

I would recommend Duncan to anyone who is looking to be proactive and keep criminals at bay. He can reinforce their home and create an impenetrable force field due to his skills and knowledge.
