Decatur, GA 30030

Dear Joann:

When we picked our new house, I was worried about all the windows and what I was going to choose to cover them.

Your suggestions provided exactly the right amount of style while adhering to my need for function: plenty of light coming in but privacy where needed, nothing to get in the way of dogs or wheelchairs, a little touch of color that would be enough to notice but still neutral enough to give us freedom with other furnishings.

The process was painless, from the initial discussion through the order placement through the install. I knew what to expect, every step of the way.

Every person who comes through the door makes a positive comment on the wood shades and we love being able to enjoy the sunlight, even when the shades are lowered.

Thank you for finding the perfect mix of window treatments, for getting every detail 100% right, and for getting everything done in our timeframe. I can't wait to sing your praises to friends and colleagues.

Warmest regards,

Jill Pullen
