Dear John,

When I first joined Power Core I was looking for a CPA for my company. When I asked around the only name I consistently heard was, John Kozak. You have an amazing reputation, one that you have clearly earned!

When I entrusted you and your firm with my accounting, I immediately knew I could relax. The professionalism, honesty and integrity of you and your staff set Fulton and Kozak apart from other accounting firms. I was so excited receiving the news that I was not only getting a Georgia state refund but a sizable Federal return as well. Because of the timely processing and filing of my taxes, I have already received my Georgia refund and expect my Federal refund later this week. I am delighted!

I enjoy working with you. Your calm demeanor and wonderful humor actually make accounting interesting to someone who does not enjoy details! I look forward to a long and successful business relationship with you. I am pleased to recommending your service at every opportunity. Thank you for your uncompromising service!

Sincerely,

Annette Curtiss
President
