RE: Paul Thompson, Zero Electric Design

To Whom It May Concern:

Paul Thompson came out to my home to evaluate some lighting and camera security issues. Paul was thorough in all aspects of his assessment and explained our many options to us. He discussed cost, our goals, energy consumption, durability, warranties, safety, aesthetics, and many other factors. Within minutes, you will know that you are dealing with a knowledgeable professional who will not steer you to unnecessary expense.

I have known Paul for some time now, but only recently hired him. His work is outstanding I am honored to have him as someone I can refer to friends who might otherwise just trust someone or some company they have found online. Paul is honest, responsive, and diligent in his work. The time he takes to pay attention to what the market offers and what products are best suited for the job is just one thing that separates him from most other electricians I have dealt with in past years.

Sincerely,

  
Daniel E. DeWoskin
