Amanda Walker, *Artist*

To whom it may concern: Amanda Walker is a true professional in every sense. She has proven herself to be not only reliable, but incredibly gifted in her craft. She's a natural born artist, I'm continually in awe of her work.

I've seen her first-hand create and capture the true essence of pets, as well as children portraits. From whimsical and abstract, to serious and dramatic, there is no artist who can better create the imagery of loved ones better than Amanda.

Our daughter, who recently turned 6, is in love with art. For her 5<sup>th</sup> birthday party, Amanda helped set up an art station, and guided the kids on the basics of creating their own art. Last Christmas, she made the perfect piece for Stella; A fun yet perfect painting of our three dogs, which is hanging on Stella's wall. The year before that, she made her a whimsical unicorn with rainbows. Stella was overwhelmed with pure joy after opening each painting, and they still bring her comfort.

Amanda is not only Stella's favorite local artist, she is ours as well. I've hired her for specific commission works, and will continue to do so with absolute confidence. She's easy to work with, accommodating and has become a dear friend over the past 10 years. I'm grateful to know her, and appreciative of her friendship and art.

Sincerely,

DocuSigned by:
