**RE: Endorsement of Dr. Regis and the Transformation Wellness Team**

Dear Dr. Regis,

I cannot thank you enough for how much you have bettered my quality of life. I will never hesitate to refer any family, friend, client, or passerby to the Transformation Wellness Team.

As you know I came to you at the end of my first pregnancy. You helped me get through the last month and a half of that pregnancy after what had been a painful seven-and-a-half-month journey. I have continued regular adjustments with you and now am twenty weeks into my second pregnancy. Your full body adjustments as well as the “homework” you give has helped me get through this pregnancy with so much less pain and barely any morning sickness.

I will also always be in awe of how much you helped my mother who had two herniated discs. She suffered years of pain until becoming a transformation wellness team member. Your comprehensive plan for assisting her and empowering her to help herself will never be forgotten.

Sincerely,

Amber R. Oliver, Esq.
