Dr Jason Regis
Wellness Transformation Team
Marietta, GA

Dear Dr Regis

Because of you, I'm a believer. This is my first real experience with chiropractic care. I know that some in your field have given the discipline a bad rap. But your professionalism and expertise have convinced me that you are at the top of your field.

I had accepted my aches and pains as being the signs of aging. Specifically, I was sent to the emergency room back in January for an acute back pain that had me immobilized. After x-rays and MRIs, the doctors diagnosed a simple back spasm caused by sitting too long at a computer. They sent me home after administering two doses of propofol IV. Since then, I have had a dull ache in that spot that sometimes grows to a twinge. However, after some stretching and rubbing, I was able to ignore it.

Enter Dr Regis. Only because of the accolades you consistently receive from others on our Woodlawn PowerCore team, I decided to try your services. Miraculously, after one session, my pain went away. Your x-rays and diagnosis found an underlying problem that the ER doctors missed. We've been addressing that for the past several weeks and the problem has not returned.

As if that weren't enough, you also provided a much-needed complimentary service to my son. Jason, you have my ringing endorsement for anyone's future wellness needs and I will recommend you highly to all my friends and family. Thanks again for being a model PowerCore member.

Warm Regards
