Dr. Jason Regis  
4343 Shallowford Rd Suite H6  
Marietta, GA 30062

Dear Dr. Regis,

You have earned my most sincere thanks! I am so pleased with the benefits I've gained from your chiropractic services with the Transformation Wellness Team. In the past I had been *exceedingly* skeptical about chiropractors and the promised results. But in more recent years I got "straighten out" as to the benefits. Still when I experienced some poorly explained pain in my left foot, I went to a number of different health care professionals seeking both diagnosis and relief, and got neither. Well actually I got two different diagnoses but nothing has brought any lasting reduction in pain.

After the two visits I've had so far with you and the members of the support team, I'm already much better. The treatments I have received have been more enlightening, more extensive and, most importantly, more beneficial than anything else provided by the other health care professionals!

I appreciate and highly recommend you for your knowledgeable insight, your caring attitude and your professional expertise. I'm so grateful for the treatment I've received and the diminished pain I've already experienced. I'm looking forward to continued improvements in my overall health and to be once more able to walk (and hike and dance) without pain!

With deep gratitude and respect,

*Linda M. Loud*
