Dear Dr. Regis,

I want to thank you so much for taking such good care of me. Not only do you adjust my back, but you adjust all of my joints from head to toe. I have been a total supporter of chiropractic care my entire life, but you are the best chiropractor I have ever used.

Not only do you and your team take care of my health, but you have been helping my dog. Sheba is a Great Pyrenees, a tall dog with a long body. She has been acting a little older and limping. Having a big heart, you offered to look at her. After you made some adjustments to her spine and hips. Using your cold laser on her neck, she has been running and jumping like a puppy.

I cannot thank you enough for taking care of Sheba and I, making both of us feel like young girls again.

Sincerely,

*Nancy Misita*
