Dear Potential Client,

I had a personal need Leslie Pierce's services as a tax expert. My husband has always filed our taxes and he was going to be also getting a step-parent adoption for my older son and wanted to know if there were any tax credits or benefits associated with that. Also, we had never had anyone really look in depth into our personal taxes before, so we didn't know if we were maximizing our deductions and credits.

Leslie was great! She went through our **70 page tax return worksheet** with a fine toothed comb. She made some suggestions about itemizing medical bills versus taking the standard deduction. She also researched the adoption tax credit and its fine print which outlined that a step-parent adoption would not qualify for the tax credit. She made some suggestions for future tracking on other expenses and was able to set my mind at ease.

She was utmost professional and knowledgeable in our tax situation and I would feel comfortable referring any of my close personal friends or colleagues to her for all their tax needs. I highly recommend her and her skills.

Sincerely,

Meredith L. Jones-Newhouse, D.C.
