Stephen,

The process of applying for my renter's and auto insurance through you and American Family Insurance could not have gone any better. I have had several insurance agents but NONE that have gone to such great lengths to ensure that my transition was successful and as easy as possible as you and Lindsay have done. The application and paperwork couldn't be any simpler to complete but even when I made a mistake you were both there to catch it right away to ensure that I received the highest discount possible.

I appreciate that when I called to check the rates for several VIN numbers for a new car purchase, and you answered, I was not transferred off to someone else and you sat with me for several minutes to give me the most accurate rate you could. Also, the follow up phone calls and emails to check in on how everything is going let me know that I am not just a policy number.

Not only can I rest easy knowing that I have great policy for my home and car but that I also have an agent that has my best interest in mind. I will highly recommend anyone in looking for a new insurance policy to give you a call at American Family Insurance.

Sincerely,

A handwritten signature in black ink, appearing to read "Bryan Stotz".

Bryan Stotz, D.C.
