Dear Jason:

Thank you for providing exceptional service to the referrals I have had the privilege of sending your way. Your knowledge of the real estate market and professional marketing plan has helped my friends and family set a price for their homes resulting in sales.

Your calm demeanor during a highly sensitive time reassured my friend when her husband was laid off and could no longer afford their mortgage. Not only did their home sell quickly, the asking price was met! She remarked about your friendly nature and professionalism and thanked me for giving her your card.

My own parents decided to downsize as part of the transition to their next phase of life. Change can be difficult, but your follow up helps to keep the seller on pace. Your advice on repairs and upgrades made the house appealing to buyers and also resulted in a sale. They are now enjoying their retirement without the upkeep of a large house and yard.

Thanks again for taking good care of the connections sent your way. I will not hesitate to refer my friends and family to you in the future.

Sincerely,

Mary Madison
