William H. Kelly:

I greatly appreciated the time and effort you spent in assisting me and my family in acquiring automotive and renters insurance. It was both pleasant and surprising to visit with you in your offices, and I could tell immediately that you were not only concerned with locating the best pricing, but also ensuring that we had the proper coverage and riders based on our need and budget. Always humble and down-to-earth, your easy manner and straight talk set me at ease, and we were surprised to find that you could help to provide us with policies that increased much of our coverage without breaking the bank.

Your patience and energy are much appreciated, and I can feel confident bringing friends, family and clients to the table based on our interactions. Having experienced your wisdom and knowledge within the PowerCore meeting has only increased my confidence and appreciation for you and your service.

Many thanks, and may you and your business continue to thrive!

Be well,
Alex Stadler, LMT
