Judy Bagwell

Corporate Payroll Service

Judy

You were one of the first referrals I made at PowerCore and you have been a compliment to my business model. I was pleasantly surprised when you showed up for the first appointment and completed all the forms one by one. I totally expected you to introduce yourself and hand us off to a clerk.

Your exemplary service and commitment to your clients was most exhibited when I was compiling reports from W2s and 1099 forms for 2019. I was in a tizzy trying to make sure all the numbers matched before an important deadline.

I called your office manager and you at 8 10 am, left a message and waited for a call. You called me back at 8 24!

As a bookkeeper, payroll is tremendously important and where there are businesses with more than three employee it's better for a professional payroll service. I choose you and when there is a question about anything or a conflict in a message between my client and your company I call you my secret weapon.

Thank you for your quick service, professional products and reasonable pricing. You make businesskeeping easy!
