

Endorsement Letter

Greg Jordan- Fish Window Cleaning

October 15, 2021

To whom it may concern:

As a realtor with Keller Williams, I have had the opportunity to use Greg Jordan with Fish Window Cleaning on many occasions to take care of my client's properties when they were getting ready to sell their homes. Greg has performed both power washing and window cleaning services for many of my customers over the last three years. Greg and his team have done an excellent job in terms of scheduling, cleaning windows and power washing often with short notice. His prices are very reasonable for the quality work performed. On the occasion a client has wanted additional services done or wanted something changed, Greg has been quick to respond and come back to the site to make sure everything was done to the client's satisfaction. He is reliable and I know I can always count on him to get the job done correctly. I have even used FISH to power wash my own home and feel I can refer him to anyone without hesitation. If you would like to talk to me about his work and services, feel free to contact me at the number below.

A handwritten signature in black ink, appearing to read 'Karen Armstrong', with a long, sweeping flourish at the end.
