Dear Megan;

I want everyone to know that you are a lifesaver!

When my husband, Ron and I became Medicare eligible he was still employed and could receive insurance benefits through his work. You sat down with us, and carefully looked at our options. Our question was - Do we stay with his work insurance or what kind of supplement plan would be better? Initially it was decided that it was more cost-effective to stay with his work benefits.

But then our situation change. My health continued to be good but Ron was diagnosed with Stage 4 Prostrate Cancer. You carefully went over his treatment plan including his medications and procedures. The best plan for us was a Medicare Advantage Plan for me and a Medicare Supplement for him.

It turned out to be the best decision. The last part of his life would have been extremely expensive had we stayed with his work insurance or gone with an Advantage plan. All we had to pay was a relatively small monthly fee for his Medicare Supplement. The Advantage plan we chose for me has been the perfect plan for my needs at this time. When my needs change, I know you will look at all of my options and help me determine what plan to select.

Thank you, Megan for being my family's lifesaver.

Sincerely,

Carol Jensen-Linton
