Dear Rebecca,

This endorsement letter is a Thank You for all the work you have done for our company.

After hearing several of your Info Minutes and meeting with you, I thought you would be a good addition to our team, and I was right. Your insight into business models, the sales process, and client interactions have been extremely beneficial. From giving us valuable input on artwork copy, to helping us redefine our sales process, your input has been extremely helpful.

What I find extremely helpful, is the customized solution you have provided. Instead of putting us through a standard one size fits all program, you are helping us work on the aspects that are most important to us. This allows us to focus on the areas that generate the most cash flow, while tweaking more long-term goals. This is key to us as a young company.

I look forward to our ongoing relationship. I highly recommend if anyone is looking to improve how their business approaches sales, marketing or customer service, they contact you.

Sincerely

Jay Hobdy
