Dear Janine,

I want to express my gratitude for what you do and how you do it! Your integrity is second to none and your competence goes above and beyond expectations.

When I was referred to and reached out to Janine, I was treated fairly and taken care of quickly. I could tell right away that signing up for insurance with Janine for my dream Chiropractic practice was going to be a smooth and easy process. Janine called to check on me and make sure I received all the paperwork and to remind me to sign on the dotted lines. I knew that she would never let me fall through the cracks.

I feel the most important aspect of doing business with anyone is that you feel you are being taken care of. That's the embodiment of service! Janine exudes that in her everyday actions.

Thank you for facilitating, protecting and helping me open my dream Chiropractic practice.
