

August 12, 2009

Hello Bill,

After being with Nationwide Insurance for 20 years, I recently felt I was not getting as good a service and response from my agent. The first benefit to changing to Allstate was a pleasant surprise in the premium savings. Now our family of five are all enjoying lower rates after switching to your company.

However, this is not the only benefit. Knowing your agent is available and willing to give good advise when purchasing insurance for our home and cars is really important. You have taken the time in making sound recommendations and as a result we have saved time and money.

Please use my name if any potential clients would like to experience the same cost savings and great service.

Thank you,
Stephen Cohen
