Smyrna, GA 30080

Dear Ms. Garrett,

I may have been a Juice Plus customer before we met, but the real benefits were not reaped until you became my representative. Approximately seven years ago I started researching Juice Plus – I often say “in God we trust, all others bring data”. Juice Plus had the studies to back up their claims, they made sense, and since it was food based, I thought it would be a good choice.

The first winter after starting on Juice Plus, I noticed that I didn’t get as sick as often as I had in the past. And while this isn’t a substitute for a clinical study, I can tell that in the past seven years, I have had fewer colds. This has a real bottom line impact since I don’t get sick days.

When we met last September, I had been working on developing better dietary practices. It’s been a long road, but you introduced me to two things that have helped greatly. Your monthly educational sessions are very helpful – every time I go to one, there is a new piece of information that I can apply to eating my way to a healthier lifestyle. Secondly, you introduced me to Juice Plus Complete which has allowed me to add more plant based protein to my diet.

With the information provided in your seminars and the Juice Plus products, I have tools to help me stay healthy, add more nutritional foods to my diet, and have faster recovery from my workouts. Thank you for helping me move forward and progress toward a better life.

Best regards,

Mike Smith
