Dear David,

I am so glad that you assisted me with my insurance needs. I initially came to you to assist with my Commercial General Liability and you pointed out coverage's that I did not have on my previous policy and was shocked to learn that I was not properly insured. I am so thankful for your recommendations as you may have saved my business in case something arises and I need to file a claim.

Once my business needs were straightened out, I asked you to review our personal insurance and was pleasantly surprised that you provided 7 different quotes and the one carrier we ended up going with, provided higher coverage limits and a lower price that I was previously paying.

I will be please to recommend you and your services that you provide to my colleagues, family and friends as you made the process simple and straight forward. Take care and again, I am happy that I have found my insurance agent for life.

Sincerely,

William "Rob" Cushard
