Dear Dr. Taylor,

Words cannot express my family's gratitude for how effectively you treated my daughter Lindsay's chronic nausea problem. Lindsay experienced nausea and sometimes vomiting about every morning from late July 2016 through March 2017. Lindsay received treatment from the best gastrointestinal doctors in town, along with brain scans and cardiac exams, but the nausea did not end. And making matters worse was that the medicines prescribed made Lindsay drowsy – making it very hard to pay attention and make good grades at school. We were at the end of our ropes – months of ineffective treatment with little positive results and challenging side effects. We were exhausted and depressed.

When you and I first met in February, I never thought that I would seek your treatment for Lindsay's condition. But on the morning of Thursday, March 30, that changed. Lindsay had thrown up every morning that week. It was time for a new direction and I called you. You graciously worked Lindsay into your schedule and spent 3 hours with us that afternoon. No waiting for an appointment weeks in the future. Your diagnosis of Lindsay's "gut health" problem was the answer. Your probiotic and vitamin prescription has changed Lindsay's wellness 180 degrees.

Two months later, Lindsay has infrequent morning nausea. When she does, a non-drowsy over the counter medicine does the trick. She often eats breakfast now. She smiles more, and is doing much better in school. We cannot thank you enough. Sometimes I use the word "miracle" to describe Lindsay's improvement while under your care. Thank you for giving a healthy life back to Lindsay!

Sincerely,

A handwritten signature in blue ink, appearing to read 'Rodney Shaffer', is written over a light blue circular stamp.
