To Anyone who has the opportunity to work with Jaad Nicholas:

My youngest daughter got married and they wanted to buy their first home. Her and her husband were first time buyers and very young. I called Jaad and said can you help them and received a resounding of course.

He gave us all the tools to establish credit for them, walked us through the process and even provided a financial on line class for the young couple. If that wasn't enough he even attended the closing to make sure all went well.

Best part is that there were no surprises the day of closing just two happy people who left to go to their new home. I can't thank you enough!
