Mike Matthy

Ambassador Window Cleaning

Dear Mike,

I am so please with your job pressure washing my Selig project. I really appreciate the extra time you spent sorting out solutions to what seemed to be a simple project. Little did we know of the problems and the extra time it would take.

Your consistent contact while we were trying to land this project, the follow up, scheduling and completion are exceptional qualities.

And look how much fun we had as it was getting colder and darker by the minute, getting to know each other better.

Even as this has been a short time relationship, I can without hesitation recommend you to anyone, personal or professional that might need your services.

Best Regards

Bill Parker
