Dear Dr. Cynthia,

I would like to present this letter of endorsement to you as your practice has been truly beneficial.

I contacted you as I was having issues with both my ankles and hip. As you know, my line of work normally involves outside sales, but I am frequently pressed into service work in the tree business.

My ankles were bothering me, and it radiated up to my hip. Your adjustments and recommendations have helped me alleviate my pain and prevent further injury. This has helped me remain pain free which makes my sales job easier and also helps when I step in to assist a crew on a job.

Thank you for your continued treatment, I am glad to be a testament to your great work!

Sincerely,

A handwritten signature in dark ink, appearing to read "B. Hickman".
