I recommend John Thompson, “The Thompson Allstate Agency”

John is an easy guy to like. He is personable, approachable, fun hearted, humble, yet confident. He has assembled a supporting staff that reflects his passion of serving clients, and the local community. I have referred many clients who have commented on their friendly, prompt, professional service. I consider them advisors, who educate clients on policy options so they can understand risk; and make wise decisions on minimizing exposure. No one wants to be under-insured when a need arises; but no one wants to pay for more coverage than is needed. John offers honest recommendations for the benefit of clients. Types of coverage include home, auto, boat, RV's, golf carts, ATV's, life, long term care, commercial, accident, and others. His team is a one-stop-shop!

For most of us, insurance is confusing...so I consider three factors when choosing an agent, “Trust, Availability, & Options”. Your trusting that agent, to lead you properly in making wise decisions to protect the things you care most for. You also want your agent to be available when needed. Lastly, you want someone that has options, so your coverage is appropriate for your specific needs. **For those reasons and others, I recommend John Thompson...” The Thompson Allstate Agency”!**

Sincerely,
Ray Evans
