

Sept. 21, 2020

I recommend Paul McCalla of “Roofing Done Wright”. It is refreshing to have someone in the roofing industry, to provide honest, competitive quotes, without the games. When I met Paul, I was impressed with his presence, straight talk, convictions, and serving nature. I have heard him speak on roofing and gutter systems and appreciate his knowledge and professional approach.

I have used his services for my home and witnessed his personal service first-hand. I called Paul and he was at my home the next day, evaluating my needs. He provided a detail quote, answered my questions, explained the benefits of his company, and scheduled the install. His crew showed up on time and completed the job timely. Paul followed-up and identified a potential problem. Without my prompting, he had his crew correcting the issue. His problem-solving skills averted a potential issue, protecting my home, (my investment). Through the process, I felt like I had an advocate, someone that cared about me, more than the profit-margin of the job. I could not be happier with Paul’s services and have since referred him to friends and family. Each time, Paul’s assessments have been straightforward and answered all questions.

Paul has a credible company behind him, “Roofing Done Wright”. When you hire Paul, your hiring an honest advocate, but also years of roofing experience with his installers. When it comes to protecting your home from the weather, your first line of defense is your roof and gutter systems. You need a professional, and **I recommend Paul McCalla of “Roofing Done Wright”.**

Sincerely, Ray Evans
