RE: Endorsement for the services provided to my family

Dear Carrie,

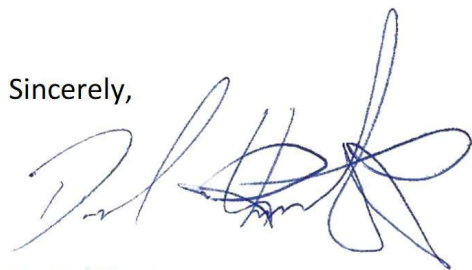

In March of 2018 I started my own business, so when it was time to make a decision about health insurance at the end of the year, I struggled researching and making sense of the all the personal health insurance options that were available. My wife has multiple chronic illnesses while my son and I are in fairly good health. This made things that much more challenging.

Around the time I began looking at the growing mountain of options in front of me, you shared how you have helped multiple people facing the same challenges at an event in Lilburn that resonated with me. I scheduled an appointment with you to discuss my needs. You asked me questions that no one in your position has asked me before, which I later learned was critically important to find the right coverage levels and associated premiums for each member of my family. When we met to discuss my options, you were prepared. You asked me questions and explained, in terms I could understand, what I should consider. Within an hour you helped me narrow down my options and select coverage plans I felt confident were right for my family and our situation.

You are a consummate professional. Your knowledge and consultative approach combined with your ability to speak in terms that your clients can easily understand sets you apart. I have learned more about health insurance from you in our hour long meeting than I have in the last 18 years, and I'm thankful I have been able to benefit from your experience. I look forward to working with you in the years to come because I know I'm in good hands.

Over the Christmas holiday I shared the experience I had with my friends and family, and I will continue to recommend you to people I know in the foreseeable future.

Sincerely,

Daniel Harrington
