

Carol Jensen-Linton,  
Juice Plus Consultant  
1715 Yarborough Drive  
Peachtree City, Georgia

Some time ago I recommended Juice Plus to a close friend. She was having a number of medical challenges, and it seemed from what I heard from Carol, this lady would benefit from the additional nutrients of fruits and vegetables in her diet. Fast forward, she has now been on the Juice Plus regimen for several months, and indeed, she has seen positive changes.

This lady lost a great amount of hair during medical treatments, and while I'm not promoting Juice Plus for hereditary baldness, she has contributed her now healthy head of hair, (per her hair stylist) to Juice Plus. If that was not enough reason, she recently visited a specialist for another problem. At the end of the appointment, the doctor wanted to make sure that she was still taking Juice Plus because in his words, "that covers everything."

For anyone wanting the health benefits of a great source of fruits and vegetables, I have two important recommendations. First Juice Plus because of the nutritional value it provides to the whole body. Secondly, I recommend Carol Jensen-Linton. Not only is she a supplier, but she believes so much in the product that she, too, consumes Juice Plus as a part of her daily diet. Additionally, she is sincerely concerned about the health of her friends and clients.

Juice Plus and Carol. My additional health consultants!

Best Regards,

Gerald Wessels
