Marietta GA 30066

Dear Curtis,

I thank you for your patience and time helping me find the right Medical Coverage. It is never easy trying to figure that out with all the options that are available. I had endless questions and you had the answer to all offering advice when I asked, helping me narrow things down to make it easy to pick a plan that fit my needs. It was great to work with someone I could trust that brought clarity to a confusing process.

Curtis your advice regarding the status of hospitals in my area and their alignment with medical plans ensured that my selection kept all my doctors in network, saving me from the grief of my friend who just found out her doctor of 15 years is now out of network. Your style is excellent, seeming to know exactly when to follow up and nudge ensuring registration was done on time. With all this behind me I'm relieved, and sure that I have the right plan.

I know if I need anything else or have additional questions you will be there to answer all of them. I recommend working with Curtis if you have any health care questions or need to discuss a change. He will apply his extensive product knowledge and take care of all your needs saving you stress and anxiety.

Sincerely,

A handwritten signature in black ink that reads 'Sarah-Anne Wildgoose'.
