Dr. Branden Evans
Cobb Pain and Wellness Center
140 Vann Street Suite 400
Marietta, Georgia 30060

Dear Dr. Evans,

I have had chronic shoulder and lower back pain for many years. I have run the gamut of Physical Therapists, Massage Therapists and other Chiropractors over the years. Yet never really having the long term relief I wanted.

That is, until I met you and my current Massage Therapist. The two of you have blessed me. The level of pain I endure today is drastically lower than it has been in the past. You provide exactly the professional, caring, expert treatment that I have sought for some time.

It is a highlight of my week when I see you for an adjustment right after I have received a therapeutic massage. Even though you two are in different offices I feel that together you care for me and for my well being. Thank you.

I have referred people I know well and work with to you with utmost praise. You make me look good by giving them the care and attention they need. My assistant uses you regularly and with much satisfaction.

Thank you so much for the care you give my health and for the way you honor my referrals—you are skilled, you are compassionate, and you have the highest integrity. I will gladly refer anyone needing your services to you and know that you will represent me well. You are good at what you do and you are 'good people'.

Thank you!

Warmest regards,

Ben Clark
