Re: Endorsement

Have you ever looked at house remodeling 'before and after pictures'? Ever wish you lived in the "after" image when you look around your home?

Richard and I did all last winter and then we stopped wishing and did something about it. We called *Legendary Renovations. Owner Phil VanFossen guided our ideas to form a budget and Jon LaMonte ran our project from demolition to last detail. Within a couple of weeks we had our 20 year old kitchen brought into the future. Our maple cabinets are now painted a modern gray-tone, factory finish lacquer that complements our granite counter tops, ceramic back splash and wide plank dark oak floors.

Even after all the punch list items and extra details, they came in under budget and best of all, we didn't have to pay anything up front. No payment was expected until we were completely satisfied with the job.

Thank you Phil, Jon and your crews for superior craftsmanship and a very pleasant remodeling experience.

Sincerely,

Gloria and Richard Snyder
