Clarence - The Tax Axe,

I wanted to take the time to thank you for helping my daughter through her tough tax situation. It was very hard for her to come to terms with the errors that she had made. You made her feel comfortable and at ease enough to explain to you what had taken place. You immediately soothed her fears with solutions and hope for a reasonable outcome. Not having that burden all on her shoulders alone was truly a blessing.

I am amazed at how thorough and meticulous your investigations with the IRS was. And, how knowledgeable you were with the possible solutions. Thank you from the bottom of our hearts. She now has a fresh new start here in Georgia.

Thank you,

Cherrise Clarke
