To anyone who would like to know more about Dr. Elbonie Hornbuckle-Preston:

I have never been one to struggle with back pain but that all changed when I become pregnant with my first child. I am naturally a stomach sleeper. When I had to start sleeping on my left side because of pregnancy, my back started to ache constantly. I also made it worse when I was traveling and worked from the bed of a hotel room for a few days.

I would have not known where to turn if I had not met Dr. E. That's because I never really understood the benefits of chiropractic care. After hearing her explain the benefits and providing clarity in how it can help pregnant women I knew I needed to give it a fair chance.

I went to her office in significant pain and left relieved. I was not only relieved about the aches in my back subsiding but also relieved that I now had a trusted chiropractic care provider.

If you are looking for someone who is not only knowledgeable in the chiropractic field but also listens to her clients, is patient, and is thorough then look no further than Dr. E of Loving Care Family Chiropractic.

Sincerely,

Jackie Csonka
